Online ToDo List

Online Todo list such as Trello is a task-management web application. It allows users to create new tasks, edit or delete existing tasks, and search for tasks. Indeed, it also allows users to share their tasks. In this project, the students are asked to develop an online task-management with the following operations:

- a. Create new tasks,
- b. Edit or delete existing tasks,
- c. Search for tasks,
- d. Time slots booking,
- e. Share tasks or the whole Todo list.

This online Todo list can be stored in cloud-based storage. Students can use any web development tools to develop this online Todo list. (Cloudera platform recommendation)
